

BLE Indoor M4 Asset Tags

The **BLE Indoor M4 Asset Tag** is a compact and cost-effective BLE tag that excels in medical equipment tracking, shopping cart tracking, and asset tracking applications. It offers numerous advantages, including an ultra-thin design, a replaceable battery, and versatile installation options.

This extensive range opens up possibilities for expanding tracking coverage and reducing the need for multiple receivers. Additionally, the **BLE Indoor M4 Asset Tag** operates reliably across a wide temperature range, further enhancing its suitability for various environments.

Key Features

- Asset Tracking Applications
- Periodic or Movement-based
- Flexible tracking mode
- Trigger event counting
- Ultra long broadcasting interval
- Intelligent power management

Applications

- Healthcare
- Retail & Entertainment
- Smart Office

Technical Specification

Data Communication Supported	BLE 5.0
Dimensions	36.5mm*23.5mm*5.2mm
Built-in Sensor	Accelerometer sensor
Installation Styles	Sticker Zip tie
LED	Red
Color	White
Advertising Interval	100 ms – 12 hours
Advertisement Frame	Apple – iBeacon Eddystone – URL, UID, TLM Customized – Tag info
Certification	FCC CE RoHS REACH Bluetooth
Battery	Coin cell battery CR2032 220 mAh Replaceable
Working Temperature	-20 °C to + 60 °C
IP Rating	IP67
